THIRTY INJURED.

The Santa Fe Vestibule Train Wrecked

None of the Passengers Killed, but a Number Seriously Injured and May Die—A List of the Injured.

TOPEKA, KAN., Oct. 25.—Thirty people were seriously injured by the wrecking of train No. 5, the through Santa Fe vestibule Denver express at Wakarusa, thirteen miles south of this city yesterday afternoon. The train was running at a high rate of speed and left the track at a curve this side of the east end of the yards. The tender, express, mail and baggage cars, and three Pullman vestibule cars all left the track. The chair car, sleeper and tourist cars were thrown on their sides. The track was torn up for about 400 feet. A relief train from this city arrived at 5:15 bringing with it the injured who were cared for at the National hotel.

The following persons were injured many of them seriously:

EX-CONSUL BEAUCHAMP.

Resident of Terre Haute Held at Syracuse, N. Y., as a Supposed Lunatic.

TERRE HAUTE, Ind., Oct. 25.—Word has been received here that Emory P. Beauchamp, of this city, who has served as United States consul at Aix-la-Chapelle, Cologne, and St. Gall, was held at Syracuse, N. Y., to await an investigation as to his sanity. While in Europe Beauchamp married a wealthy young lady of Cologne, and brought her to Terre Haute.

About a year ago, on the death of her father, they left for Europe to secure her part of the estate. The message from Syracuse is the first heard of them since they departed. Beauchamp was apparently sound mentally when he left. At one time he occupied a prominent place in Republican politics in this state and was a warm personal friend of President Grant and is a personal friend of Senator Voorhees.

A dispatch from Syracuse says: "The conductor of one of the New York Central palace cars reaching here Sunday morning had as a passenger ex-Consul Emery Purden Beauchamp, who would neither sleep himself nor let any one else sleep. On the train with the ex-consul were his wife and her maid. The conductor had to put him off at Clyde, and Mr. Beauchamp took a train back to this city, where the police found it necessary to take him into custody.

In his satchel were a can of boned chicken, six bars of soap, two hair switches, a jumping-jack, a bottle of brandy, a palace car sleeper towel and a lot of legal papers. As the man had done nothing for which he could legally be held, he was released, and took the train for Utica, where he was arrested again, Monday night, for his queer actions, and in order that he may not harm himself or others he has been returned to this city and put in custody, charged with stealing a sleeping-car towel."

Holes Stolen and Replaced.

KANSAS CITY, Oct. 25.—The police yesterday were notified that two graves at Union cemetery had been robbed. Detectives were put upon the case, and last night the bodies were reinterred. How they were taken and how replaced is a mystery. The graves robbed were those of Robert Taylor and a man named Brown, both recently buried. Holes had been dug near the headstone of each grave, down to the coffin, and the bodies had been pulled out by fastening a rope round the necks.

Alleged Crooked Land Transactions.

KOKOMO, Ind., Oct. 25.—A. N. Grant, a prominent attorney of this place, has been placed under bond of \$1,000 on complaint of Alvin Martin. Grant sold Martin certain land in Carroll county, and it was recently discovered that there was an encumbrance of \$1,000 upon it. Kokomo people are not in the least inclined to believe that Grant was guilty of any wrong in the transaction. He is one of Kokomo's foremost men, well-known, and universally respected.

LANCASTER, Oct. 25.—John L. Tysdale, the farmer who shot his neighbor, has been indicted for murder in the first degree.

THIRTY INJURED.

The Santa Fe Vestibule Train Wrecked

SOUTH OF TOPEKA, KANSAS.

None of the Passengers Killed, but a Number Seriously Injured and May Die—A List of the Injured.

TOPEKA, KAN., Oct. 25.—Thirty people were seriously injured by the wrecking of train No. 5, the through Santa Fe vestibule Denver express at Wakarusa, thirteen miles south of this city yesterday afternoon. The train was running at a high rate of speed and left the track at a curve this side of the east end of the yards. The tender, express, mail and baggage cars, and three Pullman vestibule cars all left the track. The chair car, sleeper and tourist cars were thrown on their sides. The track was torn up for about 400 feet. A relief train from this city arrived at 5:15 bringing with it the injured who were cared for at the National hotel.

The most severe damage was sustained at Monmouth Beach, the sea cut a big gap into the bluff and made a clean sweep across the driveway about thirty feet wide. The Galilee fisheries, just south of Seabright, were in a terrible state, the sea had washed and made clean sweep among the fishing houses, carrying destruction with it. In front of the big Octagon house at Seabright the heavy sea dashed up over the breakwater and into the basement of the hotel. The bulkheads at this place were badly damaged.

All along the Shrewsbury river on the other side of the driveway the high tide had wrought sad havoc. Everything that was within reach of the tide was swept away, boat houses, summer houses, stables, could all be seen adrift or standing in from eight to ten feet of water.

At Normandie—by the sea, the ocean swept over the tracks of the New Jersey Southern railway and made such bad breaks that at 9 o'clock yesterday morning railroad traffic had to be suspended. Much of the bluff at Asbury Park was washed away and at Ocean Beach the boat houses of Mr. Scofield were carried away.

Along the Hudson River.

NEWBURGH, N. Y., Oct. 25.—The storm that raged during Thursday night was a severe one along the Hudson river. The wind blew from the northeast, causing an unusual high tide. Yesterday morning the water was even with the top of Long dock, the foot of all the streets leading to the river were overflowed and cellars were flooded—in some cases four feet of water preventing entrance thereto.

At Weston's stables, men waded about in water up to their knees. Cameron's lumber yard was practically flooded, and at the south end of the city it was difficult to tell where the river front commenced. Old river men say the tide during the night and early in the morning was the highest it has been in ten years.

Damage from High Tide.

BOSTON, Oct. 25.—The high tide yesterday morning, due to the heavy early gale which has prevailed, did more damage all along Revere Beach than was done by the storm early in the week. The Woburn house at Crescent Beach has been lifted from its foundations and has settled down in the sand. A photograph building nearby has been wrecked, and the lattice work of the substantially built Palace bathing establishment has been torn away. The Cafe and the Waverly house at Oak Island have suffered to some extent.

At Fire Island.

FIRE ISLAND, N. Y., Oct. 25.—A northeaster storm of great severity prevails here, doing much damage to the board walk and the beach. At Oak Island the sea has cut the embankment away from around the Oak Island station. At Short Beach station a number of telephone poles have been carried away and washouts made in several places.

A High River.

POUGHKEEPSIE, N. Y., Oct. 25.—The water in the river is higher than it has been for years. The dock at the foot of Main street is covered to the depth of two feet with water, and the passengers and freight from the boats arriving this morning were taken ashore by wagons.

Secretary Blaine sued.

CANTON, O., Oct. 25.—Sheriff Kredir yesterday afternoon received a summons to serve on Secretary of State Blaine. The plaintiff in the case is Thomas G. Vaughan, one of the stockholders of the Ohio and Northwestern railway company. The hearing will be held in the Hamilton county common please court on Nov. 22. The suit is brought to enforce to statutory liability of stockholders, which is unpaid.

Resorts to Law to Get Justice.

GLoucester, Mass., Oct. 25.—Solomon T. Trumbull, of West Gloucester, has sued Isaac J. Proctor for \$5,000 damages. It is alleged that Mr. Proctor has written defamatory letters to E. C. Hawks of Buffalo, while Trumbull was building several stone cottages for him at Coffin's Beach, and that on account of these letters the job was taken away from him, whereby he suffered great loss.

Failed to Affiliate.

PITTSBURG, Oct. 25.—The Brotherhood of Locomotive Engineers in secret session here, by a vote of 270 to 168, defeated the majority report of the committee appointed to devise a plan of cooperation which was in favor of a scheme to affiliate with the firemen, conductors and brakemen. The vote lacked a two-thirds vote by 22. The report was sent back to the committee and the matter is still a subject of consideration. No vote has been taken on the minority report.

Conflic with Indians.

SILVER CITY, N. M., Oct. 25.—The troops who were called out to pursue the band of Apaches who murdered two sheep herders about twenty miles from here recently, met the band in an unreflected spot near the scene of the murder early yesterday morning. A conflict ensued, but the Indians beat off their pursuers after two of them had been killed.

Horrific Burned.

PIQUA, O., Oct. 25.—John McMacken was horribly burned while his clerk was handling Japan varnish. McMacken struck a match, causing an explosion. His brother, Frank McMacken, rolled the burning man in the muddy street, thereby extinguishing the flames.

LONDON, Oct. 25.—The body of a murdered woman was found at South Hampstead to-day, with the head almost severed and otherwise mutilated. The woman is supposed to have been of abandoned character. The finding of the body has revived the Jack the Ripper scare. No arrests have been made, though the police are searching for the murderer.

Collision at a Crossing.

WARSAW, Ind., Oct. 25.—A fast freight train on the Pittsburg, Fort Wayne and Chicago railway yesterday crashed into a switching train on the Cincinnati, Wabash and Michigan road, wrecking the locomotive and several cars. The trainmen escaped injury by jumping.

Both Eyes Shot Out.

DANA, Ind., Oct. 25.—While Joel Hollingsworth and Charles Rice were hunting near here, yesterday, Rice accidentally shot Hollingsworth in the face, destroying both eyes, and otherwise seriously injuring him.

World Record Again Beaten.

INDEPENDENCE, Iowa, Oct. 25.—Belle Hamlin and Justina, the double trotting team, were sent yesterday to beat 2:15, the world's record, held by them, and made it in 2:13 1-4. The day was cold and rainy. Had the weather been favorable 2:12 would have been an easy mark. The two start again on Monday.

STORMS IN THE EAST.

Great Damage Done to Shipping and Land.

ASBURY PARK, Oct. 25.—The New Jersey sea coast towns received their full share of the severe northeasterly storm that set in Thursday. All day yesterday it stormed with no abatement. The damage sustained to the shore towns from Sandy Hook to Barnegate inlet by the severe storm and heavy tides will foot up to thousands of dollars.

The most severe damage was sustained at Monmouth Beach, the sea cut a big gap into the bluff and made a clean sweep across the driveway about thirty feet wide. The Galilee fisheries, just south of Seabright, were in a terrible state, the sea had washed and made clean sweep among the fishing houses, carrying destruction with it. "Look Out for Another Advance."

The McKinley bill has not only increased the cost of many of the necessities of life, but it has advanced the price of many articles which are not classed under that head.

Musical instruments, for instance, come under the "general paragraphs" of the bill, and on such goods the measure makes an advance of 40 to 140 per cent. above the old rates of duty.

Kackley & McDougle, of this city, are dealers in some kinds of such instruments. They have received many letters from the wholesale dealers notifying them of an advance in the cost of goods as a result of the increased duty in the bill. One of these letters was from C. Bruno & Son, of New York. After mentioning the advance made by the bill in the duty on such instruments, Messrs. Bruno & Son say:

"We do not think that the advanced prices caused by higher rates of duty will kill the business. Buyers will have to pay more than formerly—that's all."

"We beg to inform you, that, in making new prices, we have, in instances where the duty rate was uncertain, always taken the lowest rate as a basis—violins, bows, etc., for instance, at 35 per cent duty; but as the tariff act gets to work it may be decided that 45 per cent. is the proper rate for such goods."

"Therefore look out for another advance at any time on some lines of goods—and in the meantime mark up your own goods on the basis of present wholesale prices."

Thus do we see how the McKinley bill is proving every day that "the tariff is a tax" on the masses to enrich the classes.

If you are opposed to this unjust law enacted by the Republicans, vote for Paynter Nov. 4th.

That's the only way you can condemn the iniquitous measure.

Vote for Paynter.

We acknowledge the receipt of an invitation from the Old Roman Club of Columbus to attend Hon. Allen G. Thurman's seventy-seventh birthday anniversary on November 13th. May the grand old man see many more years, and may the rest of his days be filled with peace and happiness.

CAPTAIN BRUCE is the Republican wolf in Farmers' Alliance clothing. He is a Republican, and his election will be heralded as a Republican victory. But he won't be elected if the Democrats do their duty and vote. The district is Democratic, and Bruce's only show is to rope in a lot of Democratic farmers. But the scheme, concocted by Judge Thomas and Bruce, is too thin to catch any Democrats.

CAPTAIN BRUCE "is a Republican and will vote with Republicans every time if elected to Congress." That's what Judge Bennett said at the late Republican convention, and the Judge spoke from a long personal acquaintance.

Now, you Alliance men. You condemn the McKinley bill. A vote for Bruce is an endorsement of that oppressive measure. And you favor free coinage of silver. Captain Bruce, being a Republican, will oppose it. How can you consistently support him?

It is very amusing to see how the Republicans are trying to work the farmers of this district for Captain Alexander Bruce. Every one of the G. O. P. papers in the district, the Maysville Republican included, publish communications this week signed "Alliance Man," or "Alliance Voter," puffing up Office-seeker Bruce, and telling the farmers he's just the man they want in Congress. Now all these communications were written by that Lewis County schemer Judge Thomas, or were dictated by him. His ear-marks are on all of them. A fine "Alliance Man" the Judge is, indeed. Wonder if any Democratic farmer is going to be gullied by such chaff as the Republicans are giving them?

"ONE fact is enough for me. The gates of Castle Garden swing inward. They do not swing outward to any American laborer seeking a better country than this. These men who have toiled at wages in other lands that barely sustain life, and opened no avenue of promise to them or their children, know the good land of hope as well as the swallow knows the land of summer."—Benjamin Harrison.

Ben Harrison is a bigger chump than we took him to be. The above is an argument in favor of high tariff. Well, he failed to tell his hearers that a big part of these emigrants from Europe came from France and Germany, two of the greatest protectionist countries of the present day. If high tariff brings such blessings, why are these emigrants leaving their high tariff homes in the old world?

Ben Harrison's talk above quoted is that of an arrant demagogue and not that of the President of a great Nation.

The City Teachers and Their Certificates

The city of Maysville, like every other city in Kentucky, has its own system of public schools, under its own management, which are chiefly supported by special taxes levied by the City Council for the purpose, which the Council is authorized to do by its charter from the Legislature. The city is entitled to and does receive from the State the same proportion of the fund levied by the State for common school purposes which is paid to every other city, according to the relative number of children within the corporate limits. This sum has heretofore been paid to the City Council, by which body it has been transferred to the School Board, from whom the teachers have always received their salaries. It may be fairly presumed that this has been done legally. The teachers of our city schools have never received any portion of their salaries from the Superintendent of Common Schools for the county, nor do they now look to him for any part of their pay, for all of which they have contracts with the School Board. The statement that Mr. Blatterman "had declined to pay their portion of the State fund to those teachers who have not received certificates from the County Examiners" is not correct, for the simple reason that none of the city teachers ever applied to him for any part of that money, and all of them had been paid as usual by the School Board. What is true is this: Mr. Blatterman has addressed to the teachers of the city schools notifications that unless they were examined and obtained certificates from the County Examiners appointed by him, he would not pay them what was due them for their services, thus striving to create the impression that those teachers must look to him for their money or a part of it. Some of these notifications have been enclosed in an envelope. Others have been offensively sent on postal cards, and among the latter have been a number received by excellent young women, who have long been in the service and are known to be competent. But some of these notifications have been accompanied by the statement that the recipient is in debt \$1.50 for an institute fee, which seems to have been the important point in this miserable business. Heretofore the Superintendents of Public Instruction for the State have held, that the City of Maysville, having been already authorized to establish a system of common schools of its own, had the right and power to have its own Board of Examiners, and that a certificate of qualification from that Board was all that was necessary; and, accordingly, the County Superintendents have paid over to the City Treasurer the proportion of the fund to which the city is legally and justly entitled. Professor Pickett, the present Superintendent, gave an express ruling to that effect in a letter directed to Mr. Galbraith, the very competent predecessor of Mr. Blatterman; and it is extremely unlikely that he has now given a ruling inconsistent with that, unless under a total misapprehension of the facts. If Mr. Blatterman's sense of duty led him to take a different position, his notifications should have been given to the Council or to the School Board. His attempt to interfere with the individual teachers, by threats and duns, has been as meddlesome in substance as it has been offensive in manner.

The Con. Con.

The Constitutional convention yesterday adopted the first section of the Bill of Rights. It is as follows:

All men are by nature free and equal, and have certain inherent and inalienable rights, among which may be reckoned:

First—The right of enjoying and defending their lives and liberties.

Second—The right of worshiping Almighty God according to the dictates of their consciences.

Third—The right of seeking and pursuing their safety and happiness.

Fourth—The right of freely communicating their thoughts and opinions, being responsible for the same.

Fifth—The right of acquiring and protecting property.

Sixth—The right of assembling together in a peaceful manner for their common good and of applying to those invested with the power of government for redress of grievances or other proper purposes, by petition, address or remonstrance.

Seventh—The right to bear arms in defense of themselves and of the State shall never be questioned, the Legislature having the right to prevent any person from carrying concealed weapons.

Eighth—That absolute arbitrary power over the lives, liberty and property of free men exists nowhere in a republic, not even in the largest majority.

Johnny and His Gun.

If "Johnny gets his gun" under the new tariff he will have to pay a pretty penny for it. But Adolphus won't. Here, as in everything else, this rich man's tariff bears down on the poor and those of moderate means, while it touches the rich as lightly as possible. "Johnny," who buys a gun for \$12 will now find that the tariff has raised the price of it to \$20. But Adolphus, who buys a \$200 gun, will have to pay only \$216 for it. The increase on the common goods is 33 per cent; on the fine 3 per cent. The rich men knew what they were doing when they laid this tariff.—Indianapolis News, Ind. Rep.

A PROMINENT physician and old army surgeon in eastern Iowa was called away from home for a few days. During his absence one of the children contracted a severe cold, and his wife bought a bottle of Chamberlain's Cough Remedy for it. They were so much pleased with the remedy that they afterwards used several bottles at various times. He said, from his experience with it, he regarded it as the most reliable preparation in use for colds, and that it came the nearest being a specific of any medicine he had ever seen. For sale by Power & Reynolds, druggists.

At Brooksville, Judge Perkins sentenced Josh Terrell, who shot Silas Parker at Foster, Ky., a few days ago, to seven years in the penitentiary, says the Dover News. Prompt work.

SOME FACTS

That the People of the City and Country Have Digested.

Politics is Not the Only Important Topic.

Every since that little apple transaction in the Garden of Eden humanity, except in darkest Africa and some of the islands of the sea, has suffered. That's one reason why some people—those who are supersensitive—never eat apples.

The overweening curiosity of Eve gave birth to the clothing trade, but the original article, *a la fig leaf*, doesn't suffice in this latitude. Even the historic uniform of a Georgia Colonel—"a shirt collar and a pair of spurs" won't answer the purpose. That's why Martin is in the clothing trade here. He is a public benefactor and his customers know it.

Let's see what he has done.

About the first of the month he advertised a reduction in the prices of boy's clothing. A terrific cut on former selling rates was made, and the people found that the fads were as advertised—the goods "went off" like hot cakes.

A cut in men's clothing, overcoats, &c., followed, and this effort to please buyers met with unbounded success. Every advertised inducement and price was carried out to the letter. No wonder, then, that Martin's is usually thronged with customers, and with a class of customers who do not "haggle" at prices.

Martin has met with such great success in these "reduced-price sales" that he will continue them for a while longer, so that all can have a chance to avail themselves of an opportunity so seldom offered.

In the meantime, the merchant tailoring department is having a splendid patronage, and the gentlemen's furnishing department shows all the nobby goods of the season.

Remember that these inducements are offered by Martin, at the Old Reliable Red Corner Clothing House.

THIRTY YEARS' EXPERIENCE has taught us the wants of the public, and we spare no pains to supply them. It is a matter of fact that our TAILOR-MADE CLOTHING is creating a perfect furor among good dressers. Our ENGLISH TOP COATS, of which we have an endless variety, can't be matched in the State. Not Seriously Hurt.
Senator Blackburn's condition was much improved yesterday and he is doing well. Dr. Nett, his physician, expressed the opinion that his injuries are not as serious as was supposed at first, and says he will be out in ten days or two weeks.

"SATURDAY, Oct. 25th, 1862, was a cold day throughout Kentucky. Snow fell throughout the northern border of the State. The writer was at Mumfordsville, Ky., on that day. The day was dark and cold. Every indication was for snow, but none fell there. The night was so cold the camp and picket guards were relieved from duty." The above is from a memorandum made by Mr. C. L. Overly, of this city.

MINER'S MAXIMS

A Good servant and a bad servant may look enough alike to pass for twins, but watch the difference in their service.
Same with good and bad shoes.

Shoes look so much alike, though the grades are wide apart.

Why is it?

Why, they're made to look alike. It's the good coin that's counterfeited. You would not buy a poor shoe if it showed poor, of course; but it won't show poor till it's worn. Then service shows the shoe. Well, then, how's a man to tell?

He can't do it.

Only thing to do is to go where they always sell good shoes and are careful of their reputation. If ten thousand people have crossed the old bridge in safety, it's reasonable to suppose it won't break down with you. If ten thousand pairs of shoes bought at MINER'S have proved to be good shoes, the ten thousand and first pair are not likely to be bad.

See the point?

And, then, the good shoes don't cost a cent more than the other kind, when you buy them at MINER'S.
